

## PRODUCT OVERVIEW

Backed by our 3 year guarantee

A low profile 4-drum sump floor is only 150mm high moulded from medium density polyethylene that can be used as a stand-alone unit or combined with others to create unlimited bunded areas. Units can be joined together with plastic connectors to inter-link the sumps and the injection moulded mesh floor has a 1000kg static weight load.

You will require an appropriate size/capacity fork lift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any off-loading.

- Modular workflow area
- 100% polyethylene
- Removable plastic grid for easy clean-up
- Optional loading and unloading ramp available
